

Westport Weston Health District

STUDY PARTICIPANTS NEEDED!

Lyme and Other Tickborne Disease Prevention Study

The Westport Weston Health District is assisting the CT Department of Public Health (DPH) and the Centers for Disease Control (CDC) in a study to determine if tickborne diseases can be prevented with a single targeted pesticide application to yards.

We are seeking participants who:

- Are at least 18 years of age
- Have a freestanding home with a yard
- Have 2 or more people living in their home
- Will allow a single, no-cost pesticide application to their yard
- Will complete short surveys about ticks and their yard

Monica Wheeler, WWHD
203-227-9571 ext 242

Westport Weston Health District

Participants will receive up to \$40 in gift cards for their time

Why should I join the study?

- To learn more about tickborne diseases and how to prevent them
- To help scientists find better ways to prevent Lyme disease and other tickborne infections in your area

**TARGET
LYME
DISEASE**
